GAS SAFETY CHECKS

KEEPING YOU SAFE

Your safety is our priority.

A Gas Safety Check is a quick, important check that could save lives.

WHY IS IT SO IMPORTANT?

Helps prevent gas leaks, fires, explosions and carbon monoxide poisoning.

Your landlord is legally required to have a Gas Safety Check carried out every 12 months.

A safe home gives you peace of mind.

CARBON MONOXIDE THE SILENT KILLER

Carbon monoxide is a colourless, odourless gas that can be deadly.

A Gas Safety Check helps protect you and your loved ones.

WHAT HAPPENS DURING A GAS SAFETY CHECK?

Appliances are inspected for safety.

Flues and ventilation are checked.

Gas pressure and performance are tested.

Any issues are reported to your landlord.

You'll receive a copy of the Gas Safety Certificate.

SMELL GAS? ACT FAST.

Open windows, turn off the gas if safe to do so and leave the property. Then call the Gas Emergency Service immediately.

0800 111 999

If you have any questions about your Gas Safety Check, please contact your landlord.
